

Dr. Alexandre Bergel

Professor (Associate) at the [University of Chile](#), member of the [Intelligent Software Construction laboratory \(ISCLab\)](#).

My research interests include software engineering, software performance, software visualization, programming environment, and machine learning.

I am interested in improving the way we build and maintain software. My current hypotheses are validated using rigorous empirical methodologies.

In 2009 I joined the University of Chile as Assistant Professor, and since 2018 I am Associate Professor.
